EDUCATION

Dwarkadas J. Sanghvi College of Engineering (DJSCE)

Expected May 2028

B.Tech in Artificial Intelligence & Machine Learning (AIML)

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript, TypeScript

AI/ML & Data: PyTorch, TensorFlow, Scikit-Learn, Pandas, EDA, Predictive Modeling

Web & Cloud: React.js, Next.js, Tailwind CSS, Supabase (PostgreSQL)

Core Concepts: System Design, OOP, Data Structures & Algorithms

TECHNICAL PROJECTS

Otakufy | Full-Stack Japanese Learning Platform | *Next.js, React, Supabase* | **Live Site**

- Architected a comprehensive educational web app utilizing spaced repetition algorithms and interactive quizzes.
- Built a modern serverless architecture separating the frontend presentation layer from the PostgreSQL backend.
- Integrated secure user authentication and maintained progression data (XP, levels, global leaderboards).

Personal Portfolio & Interactive Resume | *React.js, Tailwind CSS, Vite* | **Live Site**

- Engineered a single-page application (SPA) with dynamic localization (i18n) for seamless English/Japanese toggling.
- Utilized Tailwind CSS to design a fully responsive UI featuring dark/light mode theming and interactive components.

Employee Management System | *Python, Software Engineering*

- Engineered a modular command-line interface (CLI) in Python for CRUD operations on employee records.
- Implemented core data validation logic and a custom Bubble Sort algorithm for dynamic record retrieval.

EXPERIENCE

Artificial Intelligence Intern

Sep 2025 – Nov 2025

Acmegrade

- Conducted Exploratory Data Analysis (EDA) on proprietary datasets to identify trends and user behavior patterns.
- Designed and trained a predictive Machine Learning classification model to forecast music genre preferences.

Google Developer Student Club (GDSC) DJSCE

Oct 2025 – Present

Logistics & Events Co-committee

- Managed venue procurement and logistics for technical events and hackathons with over 200 attendees.
- Led a team of 5 students in designing technical event props and executed participant email outreach.

DJS Impulse

Sep 2025 – Present

Structures Co-committee

- Fabricated core structural components for competitive engineering projects utilizing advanced fiberglass layup techniques.
- Authored comprehensive technical documentation and engineering reports for presentations.

CERTIFICATIONS

Artificial Intelligence Training

Oct 2025

Acmegrade (in association with Rendezvous IIT Delhi)

- Intensive certification program focused on applied Artificial Intelligence and Machine Learning implementations.
